

Bachelor of Science in Artificial Intelligence

Regulations about the discounted train pass (A.Y. 2026/27)

Thanks to a partnership with Trenord, Bachelor of Science in Artificial Intelligence students can purchase a discounted train pass to travel between Milano and Pavia.

To avail of this special offer, students must obtain a special "Io Viaggio" card issued by Trenord at the request of the University of Pavia. Beware that the regular "Io Viaggio" card does not qualify for the discount, so be sure to request the special card if you need it.

The "Io Viaggio" card **is valid for six months** and **can be requested once per academic year**. With this special card, students can purchase monthly train passes to commute between Milano and Pavia at a price discounted by 75%. Please note that this discount is only applicable to train passes between these two cities and cannot be used for other types of tickets or destinations.

This year, an additional option is proposed experimentally. Students in their third year in 2026/27 and who are not repeating the year may request the card twice, for both first and second semesters. Note that the second card is not guaranteed and will be issued only if the budget allows. In case of limited availability, the second card will be issued on a first-come, first-served basis.

To purchase the discounted train pass, students must visit any Trenord sales point near a train station and present the special "Io Viaggio" within its validity period.

To obtain the special card, please complete the request form at the following link: <https://forms.gle/njK6G5QTBmnU2JKC7>. The deadline for the request is reported in the following table:

Deadline	Validity of the card
31/7/2026	1/10/2026 - 31/3/2027
9/10/2026	1/12/2026 - 31/5/2027
10/12/2026	1/2/2027 - 31/7/2027

Eligible third-year students who need the card for both semesters must indicate it in the form before the first deadline.

All requests issued before each deadline will be considered for the associated validity period (e.g., all requests issued before the first deadline will be considered for the first semester). Do not send a request for a given validity if a previous deadline has not yet expired!

Remember that:

- This opportunity is restricted to the Bachelor of Science in Artificial Intelligence students.
- Only one request (i.e., one semester) per year will be accepted.

When filling out the form, please upload a photograph that clearly shows your face. Pay attention to the requirements:

- The photo must clearly show your face (for the pose, you can take inspiration from the guidelines concerning pictures for the ID cards <https://www.cartaidentita.interno.gov.it/en/request-cie/photo-acquisition-process/>);
- It must be encoded in the JPEG format;
- The size must be **exactly** 240×270 pixels;
- The name of the file must be your tax ID (Codice fiscale) with the “.jpg” extension (for instance, "ABCXYZ98A01L123Z.jpg" if ABCXYZ98A01L123Z is your tax ID.

The University of Pavia will forward the request to Trenord, which will send back the cards before the first day of validity. Students must collect their cards in person from the Mathematics Department at the University of Pavia. Cards are usually available only a couple of days before their validity period begins (owners will be notified by email). **It will not be possible to delegate the withdrawal to others.**

Note: the conditions described above are subject to modification in the event of changes to the agreement between Trenord and the University of Pavia, or for administrative and organizational reasons.
